SCIENCE STD 5
END OF FEBRUARY
2015

FOLEY ITIRELENG PRIMARY SCHOOL

CHOOSE THE LETTER OF THE CORRECT ANSWER

1. The scientific process where by scientists make a connection between things is (1.1.1.1)

   A. Relating
   B. Inferring
   C. Predicting
   D. Analyzing

2. Which f the following is a living component (2.1.1.1)

   A. Soil
   B. Water
   C. Sun
   D. Trees

3. Which of the following scientific process do scientists state how and when something is likely to happen (1.1.1.2)

   A. Predicting
   B. Hypothesis
   C. Comparing
   D. Observing

4. Which of the following is NOT a component of Air? (2.4.1.2)

   A. Carbon dioxide
   B. Sulphur
   C. Nitrogen
   D. Oxygen

5. The following are conditions necessary for photosynthesis to take place except (2.2.1.1)

   A. Water
   B. Carbon dioxide
   C. Sunlight
   D. Stomata

6. What is science?

   A. The world
   B. People and animals only
   C. Study of things around us
   D. What we think

7. People who study science are called (1.1.1.2)

A. Scientists
B. Biologists
C. Observant
D. Chemistry

8..... Is a possible explanation (1.1.1.1)

A. Relating
B. Comparing
C. Questions
D. Hypothesis

9. A person who studies stars is called (1.1.1.2)

A. Teacher
B. Astronomer
C. Star reading
D. Discovering

10. Which of the following is an environmental problem (1.1.2.1)

A. Hypothesis
B. Soil erosion
C. Experimenting
D. Ploughing across the slope

11. Which gas is released during photosynthesis? (2.2.1.1)

A. Nitrogen
B. Carbon dioxide
C. Oxygen
D. Carbon monoxide

12. A scientist writes his/her discoveries in books and magazines for people to read. Which process is the scientist demonstrating? (1.1.1.1)

A. Experimenting
B. Hypothesis
C. Observation
D. Communication

13. What is air? (2.4.1.1)

A. Any substance which has mass
B. A combination of oxygen and carbon only
C. A mixture of different gases

D. Anything that occupies space

14. Which of the listed activities can lead to an environmental problem?

A. Watering trees
B. Afforestation
C. Overgrazing
D. Planting more trees

15. Which of the following methods CANNOT prevent rusting? (2.4.2.2)

A. Watering
B. Polishing
C. Greasing
D. Oiling

16. Which of the following is a characteristic of mammals? (2.3.1.1)

A. They lay eggs
B. They live in water
C. They are warm blooded
D. They have scales

17. Which gas takes 78% of air? (2.4.1.2)

A. Nitrogen
B. Oxygen
C. Carbon dioxide
D. Water

18. Lizards, crocodiles, snakes and tortoise belong to which class of animals? (2.3.1.4)

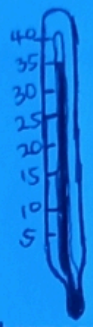

A. Amphibians
B. Mammals
C. Fish
D. Reptile

19. During photosynthesis which gas is used up and which gas is released? (2.2.1.1)

USED	RELEASED
A. Oxygen	Carbon dioxide
B. Carbon monoxide	Nitrogen
C. Oxygen	Carbon monoxide
D. Carbon dioxide	Oxygen

20. Where do plants get their energy from during the process of photosynthesis? (2.2.1.1)

A. Soil
B. Air
C. Sunlight
D. Wind

THERMOMETER 

21. What is the reading shown on the thermometer above? (2.6.1.5)

A. 39°c
B. 37°c
C. 40°c
D. 35°c

22. In Tewane lands, all the boreholes and dams are dry. How can this affect living things in Tewane? (2.1.1.2)

A. Soil will be fertile
B. Goats will produce more kids
C. Living things will die
D. Farmers will be more productive

23. In which leaf would photosynthesis take place (2.2.1.1)

A. Fallen leaf
B. Dry leaf
C. Dead leaf
D. Green leaf

24. Which term is used to describe a situation whereby many things live in an environment? (2.1.1.2)

A. Pollination
B. Space
C. Field
D. Carrying capacity

25. What will happen to the carrying capacity if there are too many animals in an area? (2.1.1.2)

A. Food will be enough
B. There will be less food
C. Animals will reproduce more
D. There will be kraal manure

STUDY THE DIGRAM BELOW AND USE IT TO ANSWER QUESTION 26.

26. From the experiment above, which condition is needed for photosynthesis on the covered part? (2.2.1.1)

A. Sunlight
B. Water
C. Oxygen
D. Chlorophyll

27Which of the following animals is an example of reptiles? (2.3.1.3)

A. Cow
B. Lizard
C. Fish
D. Frog

28. The following are components of air except (2.4.1.1)

A. Nitrogen
B. Oxygen
C. Water vapor
D. Atmosphere

29. Which of the following cannot be used to collect rain water? (2.5.1.3)

A. Reservoirs
B. Dams
C. Tanks
D. Tap

USE THE DIAGRAM BELOW TO ANSWER QUESTION 30

30. What does the above diagram show? (2.5.1.2)

A. Wind speed
B. Water cycle
C. Humidity
D. Rainfall
